

NO "IT" DEPARTMENT – NO PROBLEM...

MANAGE EMPLOYEE TIME VIA NOVATIME WEB SERVICES FROM ANYWHERE!

Pacific Time Systems (PTS), (supplier of time and attendance solutions for over 17 years and proud partner of **Rapid Data Payroll Services**) is offering the effective features and capabilities of the NOVAtime Time & Attendance Software in a hosted service solution!

NOVAtime 4000 is an Enterprise level system that provides web services for companies with single or multiple locations requiring access to [employee web punch](#), [online timesheet edit/approval](#), [project time distribution](#), [online PTO requests and approval](#), [online scheduling](#), [online expense sheet management](#), [online attendance tracking](#), [benefit tracking](#) and [self service kiosk capabilities](#). The NOVAtime Time Management Suite allows users to define and address their industry specific requirements and unique time management needs and does not require large investments in computer hardware or 3rd Party Technical Services. It converts data into money saving tools - with an end result of improved real-time decision-making and planning for your organization.
